

## Appendix 1-7 Sustainability Disclosure Indicators - Oil, Electricity, and Gas Industry

No.	Indicator	Indicator Type	Annual Disclosure	Unit	Remarks
1	Number of refineries in or near areas of dense population (Note 1)	Quantitative		Quantity	
2	Total water withdrawn, total water consumption	Quantitative		Thousand cubic meters (m <sup>3</sup> )	
3	Total hazardous waste generated and percentage recycled	Quantitative		Metric tons (t), percentage (%)	
4	Number of employees in and rate of occupational accidents	Quantitative		Percentage (%), quantity	
5	Risk management policy of critical incidents	Qualitative description		Not applicable	
6	Production by product category	Quantitative		Varies by product category	

Note 1: An area of dense population is as defined in the urbanization in Taiwan:

An area meeting either of the following standards is an urbanized area:

- a. a settlement with at least 20,000 inhabitants and a population density of at least 300 people per square kilometer
- b. two or more adjacent settlements across different cities, towns, or villages, with a total population of at least 20,000 people and an average population density of at least 300 people per square kilometer
